

For super large PDP masks

PROTEC®

Coating Machine

MODEL : CM - 3033A

It is developed for large screen masks (for PDP). It minimizes chatters that depend on the coating quality, ensuring uniform coating pressures for combination, full-page, and indicator coatings.

Custom-made products are available for maximum frame size. Please contact us for detail.

■ Main specification

Coating form	Double coating, single coating, single alternate coating, single or double combination coating, weight pressing method
Frame size	2300 × 2300 ~ 3000(W) × 3000(H)(mm), t=50 ~ 60
Drive system	AC servomotor
Frequency setting	0 ~ 99 times(single side), 0 ~ 9 times(both sides)
Numerical control	Frame size, speed, coating range by touch panel
Registered file	99
Outer dimensions	3600(W) × 1400(D) × 4130(H)(mm) *without rotary beacon light and switches
Mass	1200Kg
Battery	3 phase, AC200V, 20A
Air supply	5Kg/ cm ² (primary measurement) or above

* Specifications and design details may be subject to change.
